

5 Courses

Introduction to Data Analytics

Data Analysis with Spreadsheets and SQL

Python Data Analytics

Statistics Foundations

Introduction to Data Management

Jul 13, 2025

Anix Lynch

has successfully completed the online, non-credit Professional Certificate

Meta Data Analyst

In this specialization, learners developed and honed essential data analytics skills, including applying the OSEMN framework to data analysis, using SQL queries to pull data from a database, cleaning data using spreadsheets, and basic Python applied to data analytics. Learners also developed a foundational understanding of statistics and data management principles.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
